3D holographic display system.

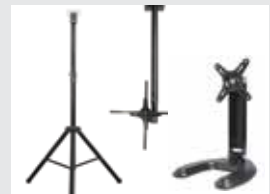

Take your content to the next level, thanks to the innovative system of rotating blades of LEDs, the 3D Holo projects 3D holographic content in the air. Equipped with a durable commercial grade fan motor, the 3D Holo provides in-air advertising and the illusion of animated objects suspended in the air 24/7.

Easy to install, the 3D Holo devices make creating breath-taking holographic advertisements easier than a breeze. Manage and project your 3D content with the user friendly content management platform.

3D holographic display system.

3D Holo 43cm

With an intuitive interface and easy setup, the 3D Holo 43 is the perfect starting model. Explore the world of 3D holographic displays and let your imagination take your marketing to the skies. Simple as plug and play.

3D Holo 65cm

Designed for more sophisticated use, the 3D Holo 65W comes with Cloud remote content management and the capacity to set-up multiple displays.

3D Holo 50cm

Ready, set, go with the Single 3D Holo: a standalone 3D holographic display that projects visuals from 43cm to 100cm.

3D Holo 100cm

With a crystal clear display, the largest 3D Holo product in the range that takes your advertising to the next level.

3D Rendering

Make your logo or product pop by creating a 3D render and animation to display on your new 3D Holo Display.

2.4m Double Sided Curved Tension Fabric Wall.

2.4m Tension Fabric curved wall utilising stretch fabric and a click together aluminum frame. This is a lightweight system that packs down into a tough but stylish carry case.

2380mm wide x 2280mm high.

Includes

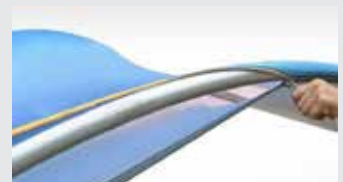

Aluminum click together frame

Hard Carry Case

2 Mountable LED Down lights

Full colour double sided stretch fabric print (i.e. can see from the front and behind the wall)

3m Overlap Series.

Our Overlap series is a simple way to add depth and uniqueness to your tension fabric wall display. You can add an Overlap wall to any of our straight walls and even add it to your existing straight wall.

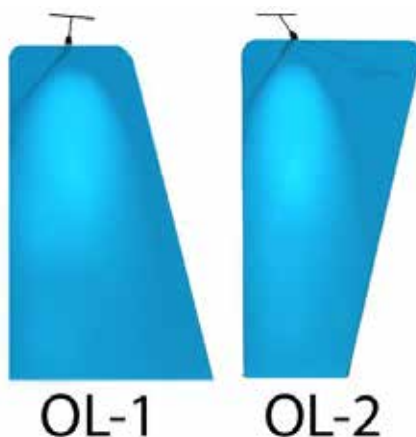

Comes in 2 angle variations OL-1 and OL-2 so you can mix and match as you please.

Size available: 1.3m at widest point x 2.4m high.

Pick either a right hand side angle or left hand side angle.

Great solution if you want to add new products at different shows or specific products or brands on special occasions. Using our standard click together lightweight aluminum frame with stretch fabric prints. These add on walls still pack up into a small lightweight carry bag for easy transport.

These walls have a flawless finish due to the stretch fabric stretched over the frame like a pillow with a heavy duty zip at the bottom.

OL-1

OL-2

Includes

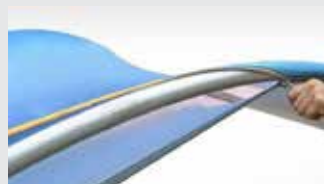

1 x 3m straight Aluminium click together frame

Hard Carry Case

2 Mountable LED Down lights

Full colour double sided stretch fabric print

The 3x3 Pop up wall is a stylish, simple and striking addition to your booth.

Our Pop up walls are by far the easiest displays to set up, as you can just pull the frame out and it automatically clips together. The scissor like framework gives it strength and a smooth gliding feel as you set it up. Once the frame clips together, just slide on the feet and you're ready to go.

On top of being eye catching, smooth and streamlined, the fabric prints we give you are super simple to install. They have been designed using our Speciality technology instead of the standard velcro, which leaves unsightly ripples and seams showing all over the print. There are absolutely no ripples, and you don't see any seams.

SEG is simply silicon edging around the edge of print that slot into the frame of the pop up wall, an innovative new form of print installation that looks so much better than any other.

The SEG print also means that your artwork will actually reach to every edge of the pop up wall. So you get the most value out of your amazing display.

We've also included an awesome carry bag that the entire display fits into. The bag comes with wheels, so you can roll it around with ease and style. Meaning that on top of being incredibly simple to set up, you can put it down and transport it just as quick.

Wall size 2240mm wide x 2240mm high x 380mm deep.

Includes

1 x 3m X 3m pull out frame and stabiliser feet

Carry bag

2 Mountable LED Down lights

Full colour – full wrap including sides and back and front
